BBMRI·be

The European research infrastructure
for biobanking and biomolecular
resources in health and life sciences

ANNUAL MEETING 2024

- 09:30-10:00 ● Coffee & Registration
- 10:00-10:05 ● Welcome words
- 10:05- 11:35 ● Achievements of the BBMRI.be Working Groups
ELSI - IT - Quality - Stakeholders - Sustainability - Networking
- 11:35-12:30 ● Keynote: The European Health Data Space & Biobanks
*Nick Marly (Cabinet of Minister of Public Health and Social Affairs)
& Inge Franki (Health Data Agency)*
- 12:30-12:35 ● Wrap-up of the morning session
- 12:35-13:30 ● Sandwich Lunch
Biobank Visit: 13:00-13:30
- 13:30-15:00 ● Workshops - part I
Implications of EHDS for biobanks *Internal Quality Audits - Part I*
- 15:00-15:30 ● Coffee break
- 15:30-17:00 ● Workshops - part II
Towards sustainable biobanks *Internal Quality Audits - Part II*
- Biobank Visit: 17:00-17:30*

AFTERNOON WORKSHOPS

TRACK1

Implications of EHDS for biobanks (13:30-15:00)

This collaborative workshop will explore the implications of the European Health Data Space (EHDS) for biobanks. This session will dive into key EHDS topics relevant to biobanks and aims to develop a wishlist of needs specific to BBMRI.be biobanks in the context of EHDS.

TRACK 2:

Internal Quality Audits (13:30-17:00)

In this workshop you'll get an introduction to performing internal audits in your biobank. We'll provide background and guidelines. You'll be able to practice in small groups with concrete biobank related topics. Afterwards we'll share lessons learned. We'll send you home inspired to implement and improve your biobank's internal audit program.

TRACK1:

Towards sustainable biobanks (15:30-17:00)

This workshop will offer a brief overview of our newly developed biobank cost template, designed to improve budgeting and resource allocation for biobanking projects. We will also engage stakeholders in a brainstorming session to identify ways to secure funding for these biobank-related costs.
